

Welcome to our website for Hertfordshire NHS Procurement.

Our valued team here deliver Procurement services for our Provider member Trusts including Strategic and Transactional Procurement plus site based Materials Management.

Here at Procurement we are dedicated to providing best in class service for our customers via our key areas of focus which are :

- Cash releasing savings
- Added Value savings
- Supplier and Market Management
- Supply Chain Management
- E- Commerce
- Product Selection / Rationalisation
- Sustainability
- Contract Compliance / Implementation and Management

In these changing times for the NHS it is now more important than ever that its Procurement arrangements continue to deliver more for less. We work collaboratively at all levels with our customers and in close conjunction with Regional and National agencies to deliver maximum value to our Trusts for their spend on goods and services

We have particularly strong links with the East of England Collaborative Procurement Hub with whom we work very closely to drive out increasing commercial benefits via collaboration, an essential approach that ensures that we continue to achieve our objectives.
